Our bespoke **QUICK LEAD TIMES** manufacturing service, guiding you from design to delivery, tailoring the final product to your exact needs and specifications.

**CONTINENTAL
CLOTHING CO.**

Overview

What is Made To Order?

We tailor our service to your needs

At Continental Clothing we have set high standards of service, from speed of manufacture, to producing high quality retail products in superior sustainable fabrics with ethical credentials.

Our Made-to-Order (MTO) service, offers bespoke manufacturing enabling you to create custom products tailored to your exact specification.

We can help you throughout the design and manufacturing process to create your own high quality, responsibly manufactured clothing and accessories.

You design, we deliver.

Quick lead times

We offer one of Europe's fastest bespoke manufacturing service

Fast turnaround

- We typically produce and deliver orders within 28 days (by road freight) or as quickly as 21 days (by air freight).

Superior fabrics

- We can create any knitted fabrics of your choice and work with a wide range of sustainable fabrics such as Certified organic cotton, Dri-tech, lyocell, Bamboo and ECOVERO™.

Short lead times

- 15 days manufacturing, 11 days delivery.

Customisable

- Pantone® colour matching, label creation & insertion.

High capacity

- 60,000-150,000 garments per week.

Minimum Order Quantities

For specific queries get in touch with our team

Stock jersey fabrics

- 400 pieces per style & colour

Dyed-to-order fabrics

- 200kg

Developed & knitted fabrics

- Minimums on special and knitted fabrics will vary depending on the fabric

Techniques and embroidering

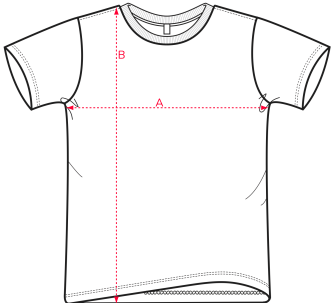

Choose from a wide selection of technologies to fit your specific design requirements

- Pantone® bespoke dyeing and finishing
- CAD product development
- Screen, digital, transfer, panel printing
- Vintage, stone and acid washing
- Brushing, peaching and sueding
- Multi-head embroidery
- Appliqué with various fabric options.

Bring your designs to life

We are experts in our field and we want to use our skills to help visualise your designs. Whether you are starting your own brand, or creating a one off product, we are here to help!

Design and development

Whatever stage you are at in the design process our team can support you from initial ideation, through to creating final factory tech packs.

Processes, embroidery and appliqué

We offer a wide range of fabric processes and embellishments to bring your designs to life.

Processes

- Peaching, brushing, sueding
- Acid washing, vintage wash, stone wash

Embroidery

- We have a state of the art embroidery service using 18-head embroidery machines

Appliqué

- We can add appliqué to both knitted and woven fabrics, with fabrics layers and distressed effects.

Custom colours

- For custom colours, Pantone® Matching System reference or a colour swatch should be provided.
- Lab-dips are free but delivery from the factory is charged at cost.
- Turnaround is 4-6 days.
- A minimum dye lot is 200 kg for core plain fabrics. (This represents around 700 women's T-shirts in size M or 600 men's T-shirts in size L).

Sampling

Once you have settled on a design we will then prepare samples and lab-dips, if required. You are then able to approve and/or give comment and if necessary sampling will continue until you are happy with the product.

Printing

- Screen / Digital and Sublimation printing at source - 'Panel printing' before garment assembly is a particular speciality, but all types of screen printing techniques are available.

How to order

For over two decades, we have excelled in our 'Made to Order' service. Our Made To Order team is dedicated to delivering on each request and helping you along the way.

1. Get in touch to get a quote

To get a quote send your design in the form of a spec, pattern, image, written brief, drawing or sample for duplication. Please include instructions on sizes, quantities, fabric, colours and label & print artwork and branding (if applicable).

Our team is here to help we can assist you throughout the design process.

2. Quote and lead time

Based on your design and order specifications you will receive a quote and a lead time estimate from a member of our order management team.

3. Sampling, feedback & approval

Once your quote has been approved you will receive the required samples and lab-dips (if needed).

You are then able to approve or comment, and if

necessary sampling will continue until you sign off the product.

4. Production

Once we have received your purchase order receipt we start production on your order.

5. Packaging and delivery

We can produce and insert kimballs and hangtags to all products. If required we will add barcodes before we pack and ship your stock according to the agreed freight and delivery method.

Order delivered as agreed per chosen freight method & lead time.
